SNAKE RESQUE HOOK

A snake rescue hook is a long, slender tool with a hook at the end that is specifically designed to safely handle snakes. The hook allows you to gently pick up the snake without harming it or risking getting bitten.

SNAKE CATCHING STICK

A snake catching stick is a long, sturdy tool with a gripper at the end that is designed to safely and securely grab a snake without causing harm to either the snake or the handler. The gripper is typically made of a strong but lightweight material such as aluminum or plastic, and is designed to be gentle on the snake's body.

SNAKE CATCHING BAG

A snake catching bag is a durable, lightweight bag made from a material that is strong enough to contain the snake but also gentle on its body. The bag typically has a drawstring or zipper closure at one end, which can be used to secure the snake inside once it has been caught.

FOLDABLE STRETCHER

Model: RS-FS

Products Features:

- Made in India
- Heavy duty imperial vinyl coated fabric
- Can be disinfected and cleaned for its reuse purpose
- Made from branded aluminium poles
- PVC grip specially moulded for nice grip
- Packed in Easy Carry Bag.

Product Specifications:

- Aluminium Pole 32mm OD and 28mm ID
- 550 GSM, Vinyl coated synthetic fabric
- Two heavy duty nylon belts attached with the stretcher
- Heavy duty buckles which are safe and easily attachable and detachable
- Heavy duty PVC Grips
- Two side expandable bars for Strength and proper stretch while folding, unfolding
- Aluminium Bar stands with 25.4mm width and 4.76mm thick at all four sides of stretcher
- Length: Unfolded- 210*53*13cm (L*W*H)
Folded- 102.87*17*8cm (L*W*H)
- Self Weight: 4.8kgs
- Gross Weight: 5.1 kgs

STRETCHER

CARRY SHEET STRETCHER:

(Model: RS-CS)

Product Features:

Carry sheets enable emergency teams to transport a patient to a safe location quickly and with minimal effort, while helping to minimise the risk of injury to the operators.

These sheets are a vital aid in both the evacuation of non-ambulant patients from hazardous situations and the transfer of patients both on and off ambulance stretchers.

Capable of carrying a large person, the Carry/transfer Sheet allows up to ten people to easily move the individual with the weight evenly distributed between them.

The Carry Sheet can be rolled or folded to facilitate easy movement of the patient onto the sheet and can be used in confined spaces.

Easy to clean and folds away for compact storage. Supplied with a storage bag.

Product Specifications:

- Material: Heavy duty Rip stop PVC Vinyl
- Handles: 10 hand loops with solid grips
- Size: 210*89cm (L*W)
- Load bearing capacity: 139kgs
- Article weight: 1kg
- Available in single as well as double layer heavy duty cloth
- Customisation: Body cover or blanket can be attached on requirement
- Colours: Orange and Yellow

NEIL ROBERTSON STRETCHER

(Model: RS-NR)

Product Features:

Neil Robertson Stretcher is designed for removing an injured person from spaces wherein access, doors or hatches are too small to permit the use of regular stretchers.

The Neil Roberson stretcher is made of flexible semi rigid canvas and can be folded easily when not in use or during accessing small places.

The stretcher is provided with strong straps which when firmly wrapped around the victim, give strong support to hold the person with almost negligible movement with respect to stretcher which is very important when rescuing or transferring injured person.

The stretcher straps are such made that when tied up over the victim, it covers the person in mummy-fashion, giving sufficient support.

Product Specification:

- Material: Made from heavy duty semi-rigid Canvas Cloth, with teak wood frame
- Packing size: 166 x 16 x 16 cm
- Frame: Teakwood
- Outer material: Canvas
- Load Limit: 120kg
- Lift type: Horizontal or Vertically

STRETCHER

SCOOP STRETCHER

(Model: RS-SS)

Product Features:

The scoop stretcher is a device used specifically for moving injured people. It is ideal for carrying casualties with possible spinal injuries.

A scoop stretcher has a structure that can be split vertically into two parts, with shaped 'blades' towards the centre which can be brought together underneath a patient. The two halves are placed separately either side of the patient, and then brought together until securing clips at the top and bottom both engage.

Scoop stretchers reduce the chance of undesirable movement of injured areas during transfer of a trauma patient, as they maintain the patient in a supine alignment during transfer to a stretcher, vacuum mattress or long spine board.

Product Specifications:

- Material used: Aluminium
- Length: 120cms (Folded) /166cms (Min) /201cms (Max)
- Width: 43inches
- Height: 4cms
- Weight: 9.7kgs
- Load Carrying Capacity: 159kgs

SPINE BOARD STRETCHER

(Model: RS-SB)

Product Features:

Our Spine Board is CE certified, MRI compatible, having long life and homogeneity with XRay. It is light in weight and resistant to bumps, corrosion and cracks. This spine board can withstand up to 190 kgs with every handling and lifting of the board. We also provide 3 belts for tying and head immobilizer on demand along with the Spine Board.

Product Specifications:

- Description: HMHDPE plastic molded stretcher for immobilization of patient.
- Raw material: Virgin HMHDPE granules from Lotrene having grade TR571 for Spine Board and Nylon for Belt.
- Colour: Orange
- Total Article Weight: 7.20kgs
- Article Length: 1823mm
- Article Width: 448mm
- Article Thickness: 61mm
- Load Carrying Capacity: 190kgs

SPILL KITS

Spill Kits are essential for all industries as Spilling is common hazard in every industry. Add-on safety has introduced LiquiZorb Spill kits as per set standards.

Goggles	Poly Carbonate	NA	Universal	NA
Garbage Bag	Bio Degradable			

SPILL KITS

Application: 15L Bag LZ15 O/U/C

Contents

- Matty Cloth Bag
- 15 Absorbent Pads
- 1 Absorbent Sock
- 1 Safety Goggle
- 1 Nitrile Gloves
- 2 Disposable Bag with 2 Ties

Application 30L Bag LZ30 O/U/C

Contents

- Matty Cloth Bag
- 25 Absorbent Pads
- 3 Absorbent Socks
- 2 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves Pair

Application: 50L Bag LZ50 O/U/C

Contents

- Matty Cloth Bag
- 30 Absorbent Pads
- 3 Absorbent Socks
- 2 Absorbent Pillows
- 3 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves

Application: 80L Drum LZ80 O/U/C

Contents

- 80L Drum
- 40 Absorbent Pads
- 3 Absorbent Socks
- 3 Absorbent pillows
- 3 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves

SPILL KITS

Application: 15L Acid/Alkali Spill Kit LZ 15 A

Contents

- 15 Chemical Absorbent Pads
- 1 Chemical Absorbent Sock
- 1 kg Acid/Alkali Neutralizer
- 2 Disposable Bags with 2 Ties
- 1 Matty Cloth Bag

Application: 120L Wheeled Dust Bin LZ 120 O/U/C

Contents

- 120L Wheeled Bin
- 60 Absorbent Pads
- 5 Absorbent Socks
- 4 Absorbent Pillows
- 5 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves

Application: 240L Wheeled Dust Bin LZ 240 O/U/C

Contents

- 240L Wheeled Bin
- 150 Absorbent Pads
- 7 Absorbent Socks
- 10 Absorbent Pillows
- 12 Disposable Bags and Ties
- 1 Safety Goggle
- 1 Nitrile Gloves

Application: LZ Mercury Spill Kit

Contents

- 500 grams Mercury Neutralizer
- 2 nos of Universal Absorbent Pads
- 1 Pair of Chemical Resistant Gloves
- 1 Dust Mask
- 1 pair of Booties
- 1 syringe
- 1 waste Collection Bag
- 1 Bucket / Pail

PENGUIN BOILER SUIT

The Penguin Bird as a community, relates to their world of United hardworking people. Let's be united and "Gear it up" for a safe and better working culture!

Product Information:

Sr. No	Model	Material Thickness	Sizes Available
1	TOUGH	200 GSM	S to 4XL
2	STURDY	220 GSM	S to 4XL
3	FORCE	240 GSM	S to 4XL

Common Features:

- Stout durable Cotton Fabric with Strong Boas Weave
- Reflective Tapes on Arms, Waist and Legs
- Flat Coat Color
- Two Flap Chest Pockets with Buttons, also Torch and Tools Pocket on Legs
- Pen Pocket on Left Sleeves
- Elasticized Back
- Two way concealed Zip Fastening
- Bar tacking done in places where more Strength is needed to Support Extra Load
- Double Munda stitching on all the Sides
- Design as per EN Standard & Sizes
- Colours Available - Orange, Navy Blue & Royal Blue

LIFE JACKET

Swim Care products are basically connected with our Emergency Medical Kits as they are regularly demanded by rescue operation teams and organisation. Swim Care products are mainly looking after Life Jackets and Life Buoy Rings. Life Jackets primarily available in Class III category where CE certification suffice all the need of approvals

MODEL: Floater (for Child)

- Personal Floatation Device
- Buoyancy - 50N
- TYPE III PFD
- User Weight – upto 50 Kilograms
- Style - Free Size
- Water Repellent Fabric
- 100% PE Foam
- Quick Release Buckle
- Standard Belts for Secure Fits
- High Visibility Colour
- IRS Approved Non-Clog Whistle
- Retro Reflective Tape Panels

MODEL: Coastal

- Personal Floatation Device
- Buoyancy - 100N
- TYPE III PFD
- User Age - Adult
- User Weight - 80 to 100 Kilograms
- Style - Free Size
- Strong Nylon Fabric
- 100% PE Foam
- Quick Release Buckle
- Standard Belts for Secure Fits
- High Visibility Colour
- IRS Approved Non-Clog Whistle
- CE Certified

LIFE JACKET

MODEL: Oceanic

- Personal Floatation Device
- Buoyancy - 140N
- TYPE III PFD
- User Age - 18 to 60 years
- User Weight - 40 to 140 Kilograms
- Style - Free Size
- Water Repellent Fabric
- 10m x 3 ply foam thickness
- 100% PE Foam
- Quick Release Buckle
- Standard Belts for Secure Fits
- High Visibility Colour
- IRS Approved Non-Clog Whistle
- Solas Approved Tape
- CE certified & Solas compliances

MODEL: Aquatic

- Personal Floatation Device
- Buoyancy - 140N
- TYPE III PFD
- User Age - 18 to 60 years
- User Weight - 40 to 140 Kilograms
- Style - Free Size
- Water Repellent Fabric
- 100% PE Foam
- Quick Release Buckle
- Standard Belts for Secure Fits
- High Visibility Colour
- IRS Approved Non-Clog Whistle
- Solas approved high visibility reflective Tape Panels
- Non Turnable
- CE Certified & SOLAS compliances

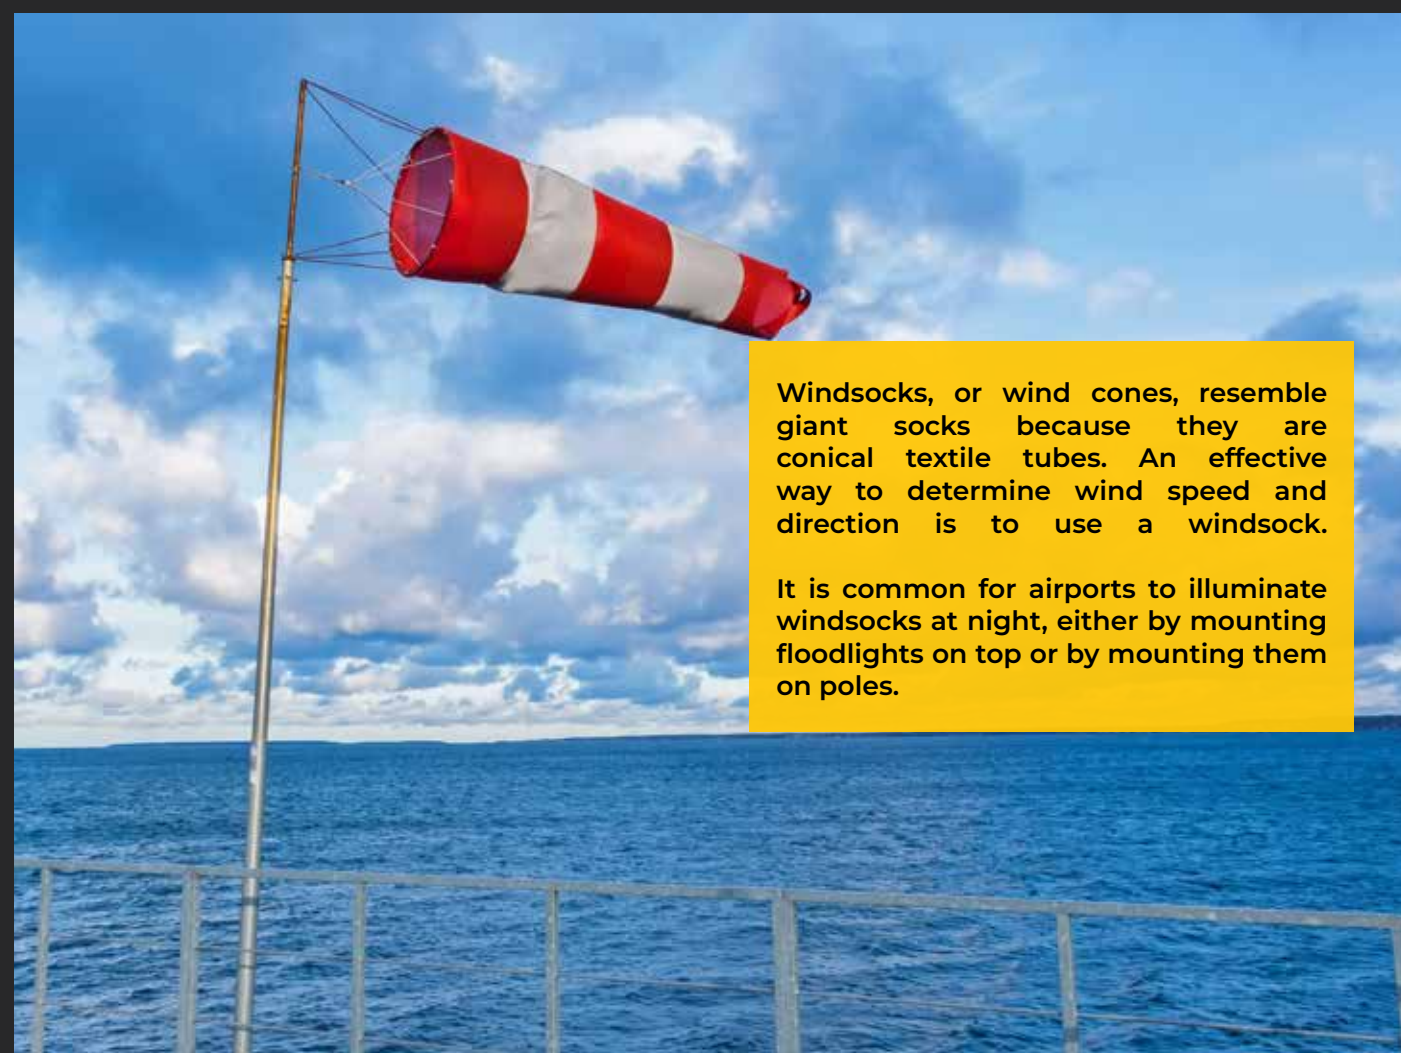

MODEL: Lifebuoy Ring

- Weight: 2.5kg+
- Outside Diameter: Not less than 72 cm
- Inside Diameter: Not More than 43 Cm
- Outside Material: HDPE Plastic
- Inside Material: Rigid Foam
- Color: Orange
- Lifeline Rope: 10mm, White color
- Reflective Tape: 50mm W* 4 no
- Shelf Life: 5 years
- Standard: SOLAS Approved
- Certifications: CE
- Buoyance: 16.5N

WIND SOCKS

Windsocks, or wind cones, resemble giant socks because they are conical textile tubes. An effective way to determine wind speed and direction is to use a windsock.

It is common for airports to illuminate windsocks at night, either by mounting floodlights on top or by mounting them on poles.

Specifications:

Material:

Model PUS:
Polyurethane Coated Nylon Fabric
(Water Repellent)

Model RS:
Rubberized Nylon Fabric with
reflective tape

Size:
72" x 37" x 20"

Color:
Red and White, Fluorescent Color
(Orange & Green)

Installation:
On roof top of any Industry,
Institution or complex

Reflective Tape:
Optional with Polyester or Glass
Weaved

EYE WASH BOTTLE

An immediate and effective tool to decontaminate or clean the damaged eyes due to injuries caused by insects, chemical splash, dust etc. Clean water should be filled while using this eyewash bottle.

Product Features:

- Emergency Eye wash Bottle, quantity 500ml
- Portable, lightweight and wall mountable soft and effective
- Eye wash can be delivered in seconds even if the person is Lying down
- Available with stand

Material:

Plastic (HOPE, Virgin Material)

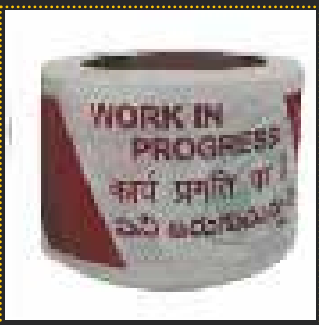

CAUTION AND WARNING TAPES

Safety Industry has accepted our Caution Tape as premium and quality product throughout India. From Raw Material to UV resistant Printing Ink, and accuracy in length is main feature of our different caution tapes as per color codes given by OSHA. Taking care of awareness for the Environment we have introduce Bio Degradable Caution Tape first time in India.

We are also manufacturing Underground Warning Tapes for different type of Underground pipeline/ Cable work.

How Safety Works?

To preserve lives and the environment, safety is a form of strong attitude supported by ergonomic engineering and science.
